

A comprehensive pre-award solution developed by a team of experts in higher education research administration which will fulfill your organisation's unique pre-awards needs.

Why GrantsNow?

Our team has engaged with other institutions to understand important focus areas and

- Delivered similar integrations between Oracle R12 Grants (EBS) and InfoED
- Delivered over 100 integrations using OICS
- Haverich experience in building 'in-house' pre-award systems for higher education

We have used our extensive knowledge of pre-award processes and system integrations to develop an intelligent solution that comprehensively addresses challenges faced by pre-award administrators

Meet the team

Karen Gregory

Higher education research administration specialist with a strong background (over 15 years) in supporting the development, configuration, and delivery of solutions for Imperial College London. This includes pre-awards systems (InfoEd and WorkTribe) and post-award integrations (Oracle Grants).

An experienced professional, who has worked for multiple IT services and outsourcing providers. He has run a consultancy since 2012 as a board advisor to deliver successful launches into new geographies such as the UK and Asia. Enterprise software, business process outsourcing, business intelligence, media and events, logistics, and manufacturing are some of his focus areas.

Ian McGowan

Ankush Shinde

A proven track record with Imperial College London where he was responsible for automation of fEC, pricing, and reference data gathering for pre-award processes and implementing Oracle Students Systems. He has extensive experience in Oracle Financials, Oracle Grants and Pre-awards systems (InfoEd and Worktribe).

Solution architect with experience of delivering solutions across Oracle PAAS & SAAS, for Oracle Financials, HR, Payroll, Oracle Grants and Procure To Pay. He has extensive experience in the integration of Oracle systems to InfoED for Imperial College London. Established Oracle ACE and author of best-selling books with Oracle Press.
